

The Year of Pandemic

RC Dhaka Rose Vale

Year 2020-2021

District Governor's Message

Dear President Rtn. Shahida Alam,

This was no ordinary year. My gratitude and congratulations to you and all the respected members of your club for successfully completing the year under the unprecedented circumstance. We take pride for the veteran Rotarians of your club, who always kept busy serving the humanity, despite all the challenges. It was an immense pleasure for me to take part in RC Dhaka Rose Vale's innovative sticker project, *Hands-free Toilet for Women, Children and Physically Disabled*. My best regards to the outgoing president and the members of the board and humbly wish my very best to the incoming president and members of board and you will find me with you for the days ahead.

Rtn. Md. Rubayet Hossain

District Governor, 2020-21

RID 3281

President's Message

Assalamualaikum,

Congratulations Rotary Club of Dhaka Rose Vale for adding another successful year to your belt.

It was an unusual year indeed and none of us were sure how the year would unveil. My heartiest thanks and gratitude to my board and delightful club members for the quality of support and participation you have contributed under difficult circumstance; without you the club couldn't have rose to the challenge. Rtn. Najma's and Rtn. Halima's physical presence throughout the year, Rtn. Sheezan's ever present virtual support or Rtn. Reena's presence and inspiration despite her health condition are some of the finest examples of Rotary fellowship. Special thanks to my secretary Rtn. Salma for soldiering with me though out the year. Your skills and resolution was instrumental to the club's success. It is our combined effort that got our club RI's "Club Siltation".

Rtn. Shahida Alam

President 2020-21

Thanks and Congratulations goes out to our Governor Md. Rubayet Hossain for District's outstanding performance in a pandemic year. Your leadership and guidance paved the way for an impactful, vibrant year. We deeply appreciate district's financial contribution to the various Community Service Projects; it made a difference.

Finally, I want to thank my husband Rtn. M. N. Alam for his valuable advice and my entire family for their encouragement and support.

I welcome President Elect Rtn. Suchitra and your board and wish our club every success under your leadership. You can expect every support and advice you may need to navigate these uncharted waters.

Best regards and wishes to my club members; wish you all a happy healthy life.

Charter President Reflects

Bismilahir Rahman ur Rahim!

It was in the year 1994, that Shiekh Mohammed Kawsar, Past President of Rotary Club of Kushtia, my nephew-in-law invited me to attend a Rotary club meeting. He talked about Rotary and its various aspects and activities. It was his suggestion to approach the then District Governor, Engineer Emdad-ul-Huq to form a Rotary club consisting of women only. I was intrigued by his unique and novel proposal. To me, the idea was quite interesting and the fact that, Rotary programmes and projects, were not limited to entertainment with friends and family only but extended to welfare activities and commitment for the needy and downtrodden. The diversity of Rotary activities added a new paradigm to my thoughts and it was an added attraction which paved the path for me to move forward. I ventured to work on it. It was no easy task, not only an uphill one but, that made the way a roller coaster ride

Rtn. PP. Prof. Nazma Shams

Charter President 1995-98

My endeavors were not in vain. The District Governor was convinced by my logic and gave Past District Governor, Prof. Jalal-u-Ahmed the responsibility to look into the matter. He was also interested in the idea of the unprecedented all-women's Rotary club. Rotary District 3280, in the year 1995, was an undivided single Rotary District.

The ground work for mobilization of friends and acquaintances was an enormous and mammoth task. There were several sittings and meetings over tea and dinner at our residence in Banani, Dhaka. Today, I fondly recall Prof. Jalal-u-Ahmed's appreciation of the efforts I made and soon he became a near person to my children. He did not fail to mention this whenever he had an occasion

or opportunity to do so Allah willing, we were successful in forming the desired club consisting of only women. Meetings were held from the month of June, 1995 and finally the association of 32 women emerged as a Rotary club of the District 3280 on 1st. August 1995.

I chose 'Rose Vale', as the name of the club to signify softness, serenity and scent, all of which are found in a ROSE and VALE, stands for a receptacle, encompassing life's hurdles and accommodating all women (ROSES) who are interested to be involved in Rotary The club bulletin was named, 'The Rose Robin'

I, Prof. Najma Shams, received the Charter Certificate on behalf of the club from the then President of Bangladesh, Mr. Abdur Rahman Biswas on 17th. May 1996 at the XII Rotary District Conference held in Dhaka.

Today, the club has reached enviable heights through unity, steadfastness and progressive actions. As women - we are one (President) for all (members) and all for one, this has served as the binding force, the pivot and steered the club

through thick and thin. As human beings, as Rotarians and above all as religious practitioners, we believe, 'He is not a Muslim, who does not wish for his brother what he wishes for himself', Rotary provides opportunities to wish and work for others what we wish for ourselves.

Remembering Prof. Jalal U Ahmed

Late Prof. Jalal-u-Ahmed, Past District Governor, who had been instrumental in the formation of the club, was a popular character in the Rotary District 3280 for his in-depth knowledge of Rotary Rules and Norms, was a familiar name in the club. In 1999, Rehana Jalal, spouse of Prof. Jalal-u-Ahmed, was invited to join the club by Rotarian Mabel Roderick, a Charter Member of the club. With Rehana Jalal, a Rotarian in the club, it was a ritual for Prof. Jalal-u-Ahmed to be a visiting Rotarian to Rotary club of Dhaka Rose Vale. The club members sought guidance and suggestions from Prof. Jalal-u-Ahmed on various issues. He was an ever-present individual in all club events. In the year Rotary year 2019 - 2020, he was given honorary membership of the club.

The club members have pleasant memories with Prof. Jalal-u-Ahmed and never fail to recognize his help and support to the club whenever there is scope.

May Allah grant the Ahmed couple Jannat, Ameen.

His last meet with the club was the very first meeting of this rota-year. Despite his ill health he virtually joined the meeting and extended a warm welcome to the incoming board.

Secretary's Report

Assalamualaikum,

It is my pleasure to present a summary of club's activity in 2020-21.

Regular Club Meetings were held under special arrangement due to restriction on movement throughout the year. The club availed the service of 'Zoom' to hold virtual meetings; at usual hours: every other Friday 1030 hrs.

Regular Meetings:24

Board Meetings:12

Assemblies: 5

Special Meetings: 2

Avg. Attendance: 54%

Governor's Visit and Club Assembly was successfully held on September 29.

This year the club carried out 13 Community Service Projects and 11 Joint Projects.

The club has also undertook a sticker project with Non Rotarian Partners: Dhaka Medical Collage Hospital and Bhumijo, a start-up organization specializing in Public Toilets. The project is now nearing its completion stage.

A sorted list of club's Community Service activities is provided in the following

Sincerely Yours

Rtn. Umme Salma Rahman

Secretary 2020-21

- ✓Dholaipar Boy's High School Renovation

- ✓Forging Partnership with Government and Non-Government Operators for Impactful Initiatives.

- ✓Patron Partner of a Hands-free Toiler for Women, Children and Physically Disabled at Dhaka Medical Collage Hospital- Outdoor Wing

Dear friends, please accept my greetings, we spent a year without physical meetings due to Covid situation, but we kept ourselves involved in digital platforms and did regular meetings with Zoom platform. We discussed our plans and implementation of projects besides we exchanged our well being of members and how we can same time maintain social distance and keep our club alive and active. Few members of our club and other Rotarians were victims of Covid virus; we members did special prayers for them. Also we lost our mentor PDG Prof. Jalal U. Ahmed. We held special prayers and discussions and observed 1 minute silence to show our respect to him. Also did prayers for other deceased Rotarians. In this way we continued our fellowship. We also monitor implementation of our various projects under the able leadership of our president Rtn Shahida Alam. During this we also organized food for needy people and fund for flood victims. With the cooperation of District Governor, we also arranged fund for our

Fellowship in Pandemic

sticker toilet project . We are indeed happy that could perform our Rotary motto and obligations through digital meeting in this Covid pandemic. In few meetings we talked about current experiences and observed PohelaBoishak; enjoyed songs and music by members. It was really fun time during these difficult periods. Also we had guest speakers over Zoom meetings. My special thanks to Rtn Shahida Alam and Rtn Umme Salma, Rtn Nishat Nawal for performing their duties so efficiently. Also thanks to Rtn Nazma Shams and Rtn Halima Begum and Rtn Suchitra Rani Kundu for their physical presence during many projects along with President. Thanks to madam President for giving me the opportunity to express my feelings.

Rtn. PP Sheezan Khan

Love and best wishes for all vibrant and beautiful Roses

Club Assembly

Emergency Meeting at President's Residence

Governor's Club Visit

Service Above Self

Rotary is a Global Force

With 35 thousand plus clubs and 1.2 million members united globally under Rotary umbrella, in more than 110 years Rotary International has created a commendable footprint on all four corners of the globe.

“Global Polio Irradiation Initiative” is one example of mammoth undertaking by Rotary International and World Health Organization (WHO), commencing on 1988. 30 years on and with over 1 billion dollars in contribution from RI, the fight against polio is coming to an end with a handful of cases remaining in two countries. Rotary is committed to see this battle through to the finish line, energizing global participation every year by powering “World Polio Day” events on 24 October.

Rotary is a Frontier

Rotary is a visionary force that has historically introduced many socio-economic game-changers; everywhere. In Bangladesh, one of the nation’s flag-ship

success stories, *Disaster Resilience* was in many ways implanted by Rotary introducing the concept of Cyclone Center back in 1972; and setting-up some exemplary cases. Many other nationally recognized phenomenon today like “যাত্রীছাউনি”, “মৎসচাষ” (pc culture), public toilet, etc. were introduced by the clubs’ initiatives.

Rotary Works Up-close & Personal

Estimated globally 16 million volunteer hours every year, Rotarians take after their own niche interests which tallies up to beautiful life changing experiences for millions in need. Ventricular Septal Defect (children born with holes in the heart) and Cleft Lip (children born with split lip) corrective surgeries are two examples of such programs that has brought meaningful changes to many lives.

Even in this time of Covid-19 epidemic, RI District-3281 is on the ground with its nationwide program “Meal Everyday undertaking the health risks (with precaution) to alleviate the hardship of many in need.

Community Service

RC Dhaka Rose Vale kicked off the rota year on its' very first day with a District Project. **“Meal Everyday”** is an ambitious project brought to action by District Governor Rubayet Hossain even before the beginning of his tenure as a governor. In the backdrop of Covid and consequent lock-down earlier in the year, the program arranged food for hundreds of poor people every day, for months on end; all across the nation.

RC Dhaka Rose Vale was honored to play it's role on the first day of the year and hit the ground running. In the early days of the pandemic when rules and norms were still taking shape, the program rolled out in an orderly manner which gave us the confidence to take on farther projects with due diligence.

Community Service

T&T Boy's High School, Banani, is has a special place in the heart of the club. Over very own Halima Begum is the principal of the institution and a long time teacher. The club feels happy to go back to the institution and watch and encourage their progress.

Amid the rainy season RC Dhaka Rose Vale carried out a tree plantation program; a club favorite. Floral and fruit bearing plants were selected keeping the pupils' pleasure in mind.

Earlier in this calendar year Rotarians again visited the institution. Keeping in mind the long pandemic vacation, Rotarians brought some academic utensils and snacks to keep the moral of the students up.

Community Service

Fellowship is at the heart of Rotary. And when clubs joins forces and pulls their resources together, challenges becomes little more than everyday chores.

Joint Projects were especially relevant and meaningful this year as a great number of low income people needed assistance from joblessness and natural disasters like flood.

Starting from flood relief to disease screening – treatment and income generating initiatives were being taken by Rotary clubs from all over the country. RC Dhaka Rose Vale took part in other initiatives as did brought in other clubs under its leadership to make a difference.

Mastul Foundation is a philanthropic organization involved in various enterprises. RC Dhaka Rose Vale took notice of their invaluable undertaking, the funeral project for those diseases from Covid affliction. The club gladly donated to their cause recognizing the hazardous burden shift they are gladly serving for the benefit of the mass.

--	--	---	--

Community Service

District 3281 was no less active in 2020-21 despite the pandemic. If anything the district has engaged in even more community service projects. The preparatory training PETS and capable leadership of District Governor Md. Rubayet Hossain have kept the districts in high gear and good spirit.

RC Dhaka Rose Vale participated in three **District Programs**, all of which were Disaster Response and Community Relief related programs. “Meals Everyday” very early in the year was meant as emergency relief aid. Later in the year was country wide Flood Relief and Rehabilitation program; Rose Vale undertook two projects in two rural communities. Earlier in this calendar year, upon the news of a looming second wave Covid infection, RID 3281 promptly set up an cylinder oxygen supply pool ‘Oxygen Bank’. But naturally RC Dhaka Rose Vale took part in it

Community Service

Rota-year 2020-21 was uncomfortably unique.

The pandemic not only brought physical distress, the consequent lockdown brought economic despair for many. And when flood hit the nation, it was but inevitable that **Relief and Rehabilitation** was going to lead the agenda for RID 3280-81. Here are a few snapshots of RC Dhaka Rose Vale in action.

Cooked Food Packaging: DG Office, Tejgaon

Rajapur: Relief and Rehabilitation

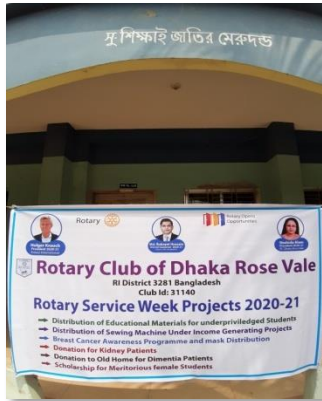

Income Generating Project at Badda

Mosdoi: Relief and Student Scholarship

Community Service

Supporting basic **Education and Literacy** is a common feature in the club's project calendars. In 2020-21 the club gave away 23 scholarships and sponsorship. In loving memory of Late Trishna Datto, a former member of the club, her family has established a scholarship program "Trishna Datto Memorial Scholarship Award" for a female student from the medical discipline. Another sponsorship was undertaken by club's newly inducted member Ishita Alam, baring education, stationary, tiffin and medical expenses of a child for the entirety of her school years.

10 clubs jointly sponsored a rigorous renovation program for "Dholaipar Boy's High School", retrofitting it with digital class-room, improved library, sports yard and general repair and sanitation works.

Awareness Building is a common place for Rotarians. But regular topics took a back seat this year and Social Distancing & Covid Hygiene efficacy topped the list. RC Dhaka Rose Vale carried out series Covid Awareness and Mask Distribution Camps throughout the year, including slums, professional institution and rural areas.

The club also carried out a Breast Cancer Awareness camp and two joint projects on Environmental and Diabetes Awareness.

Awareness camp with female journalists at BTV

Organised by:
 Club of Dhaka Rose Vale

Community Service

The club arranged and participated in several projects far outside the city reach. While most of them were relief works, one **day-long** program was observed when Rotarians visited an Old-home and an Orphanage in Bhaluka. Sneho- the old home is run by a club member Rtn. Malobika Munshi. Rotarians brought gifts and greetings when they met the elderly and adolescent borders. Later they planted fruit and herbal plants at the premises.

While at relief work Rotarians in another occasion awarded **scholarships** to 12 collage girls in Rajapur. In Mosdoi the club awarded another 10 scholarships to madrasa students.

In all these places Rotarians visited in the year, they always took Rotary branded breathing masks and message of **Covid hygiene**.

Sticker Project

Bumijo is a start-up organization that works with sustainable model of Public Toilet upgradation and maintenance. When RC Rose Vale found out that they are working on a prototype hands-free public toilet model, the club immediately recognized its utility in a pandemic environment. Upon much research, planning and discussion with Bhumijo, a working committee selected the Dhaka Medical Collage Hospital to be an appropriate venue to showcase such a novel model toilet for the public.

Dhaka Medical Collage Hospital is the most heavy duty medical facility of the country and also one of the most under nourished. Some ten thousand visitors daily take service from its outdoor unit, half of which are women and children.

Upon much deliberation, RC Dhaka Rose Vale, Bhumijo and DMCH reached an agreement to set up a Hands-free Toilet for Women, Children and Physically Disabled at the Outdoor Unit premises of the national flagship hospital. On 29 June of this year, the three party signed an MOU where RID 3281 governor Md. Rubayet Hossain and DMCH Director Brigadier Munir Hossain was present. The build is currently underway.

Did you know? Early on, Paul Harris realized that Rotary needed a greater purpose. While Harris served as president of the Chicago Rotary Club in 1907, the club initiated its first public service project, the construction of public toilets in Chicago. This step transformed Rotary into the world's first Service Club. The Rotary Club of Chicago performs one of its first acts of community service.
